

Client	Argos
Location	UK
Contract Value	£1,000,000+
Contact	Andy Brown

BBC Fire have been suppliers and service contractors to Argos since 1990.

Initially selected as a Maintenance Contractor, BBC have during this period, and continue to conduct planned maintenance and emergency call out services for their Fire Alarm and Emergency Lighting Systems throughout the UK.

Since 1996, BBC were selected to provide the Fire Alarm Systems for all required upgrades and replacements.

Since then, BBC have supplied systems to :

- Basildon
- Barton under Needwood
- Lutterworth
- Castleford
- Heywood
- Daventry
-

The systems supplied were dependent upon the existing system protocols and whether the system was to be completely replaced, but in the main Notifier ID3000 Networking Intelligent Addressable Systems were installed and further controlled via a PC based Alarm Management Graphics Station.

Detection to the warehouses utilized Infra Red Beam Detection at high level.
