11. **BS5266 Emergency Lighting Standards & Design Considerations**
12. **Carbon Monoxide - The Silent Killer**

### Testimonials

"A very informative seminar, with an excellent use of speaker notes"

"Just wanted to say a big thankyou to you and the team for your input on Monday, the presentations were just what I needed and made all the more powerful by having such a high level of technical expertise available. The advisors I particularly wanted to engage fed back that their individual questions were clarified and that they have a far better understanding of more innovative systems and solutions. "
